

# Building All-Scenario Intelligent Computing Solutions

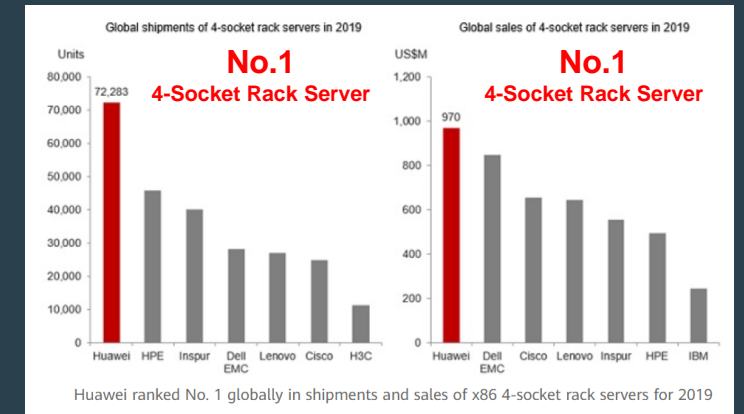

-- Computing Business Update

# Continuous Innovation with Intel

- ✓ 19 Years Strategic Partnership since 2001, over 4.31M Units Shipped
- ✓ FusionServer/Pro X86 Products Synchronous to Intel Processor Release Schedule

Total shipments

**4.31M** units

2001

In 2001, strategic partnership Signed, and Huawei started server R&D.

...

High-level interaction for a long time, continuing to jointly release new products and solutions

2016

2016 HCC Conference, jointly released the RSD server

2016, jointly built the innovation computing center in Hangzhou

2017

2017, Jointly held CTO technical forums about AI, edge computing, and cloud computing

2017, HPC innovation MoU Signed

2019

2019, jointly released the FusionServer Pro server based on 2nd generation Intel Xeon processors

2020

June 2020, AI-Optimized Cooper Lake Processor based Server 2488H V6 Launched

More Coming

2021 ...

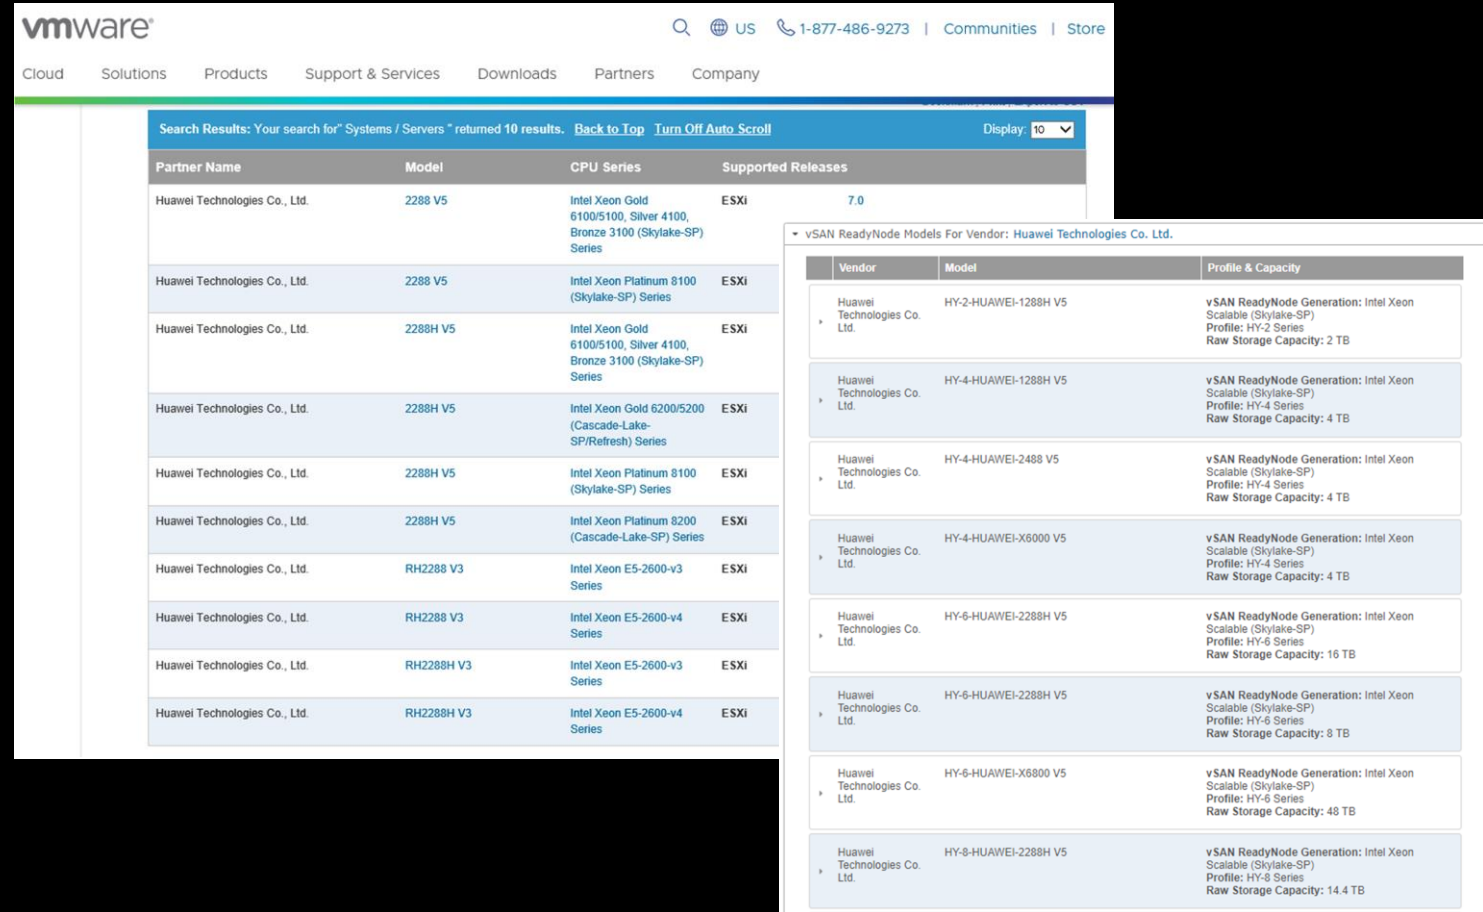

# Partners Will Continue to Provide Compatibility Certification and Technical Support for Huawei Servers

- ✓ Partners such as **VMware**, **SUSE**, **CentOS**, and **Ubuntu** will continue to work with Huawei to provide compatibility certification and technical support for **FusionServer Pro** servers.

**On May 23, 2020, VMware announced that Huawei FusionServer Pro 2288H V5 and other servers have passed the latest VMware vSphere 7.0 compatibility certification.**

Certification results are available on the VMware official website:  
[https://www.vmware.com/resources/compatibility/search.php?deviceCategory=server&details=1&partner=242&releases=448&keyword=2288&page=1&display\\_interval=10&sortColumn=Partner&sortOrder=Asc](https://www.vmware.com/resources/compatibility/search.php?deviceCategory=server&details=1&partner=242&releases=448&keyword=2288&page=1&display_interval=10&sortColumn=Partner&sortOrder=Asc)

**\*VMware vSphere, vSAN, and vCenter will continue to provide compatibility certification and technical support for Huawei FusionServer Pro servers.**

Huawei Technologies Co., Ltd.	RH2288H V3	Intel Xeon E5-2600-v4 Series	ESXi 7.0

vSAN ReadyNode Models For Vendor: Huawei Technologies Co. Ltd.

Vendor	Model	Profile & Capacity
Huawei Technologies Co. Ltd.	HY-2-HUAWEI-1288H V5	vSAN ReadyNode Generation: Intel Xeon Scalable (Skylake-SP) Profile: HY-2 Series Raw Storage Capacity: 2 TB
Huawei Technologies Co. Ltd.	HY-4-HUAWEI-1288H V5	vSAN ReadyNode Generation: Intel Xeon Scalable (Skylake-SP) Profile: HY-4 Series Raw Storage Capacity: 4 TB
Huawei Technologies Co. Ltd.	HY-4-HUAWEI-2488 V5	vSAN ReadyNode Generation: Intel Xeon Scalable (Skylake-SP) Profile: HY-4 Series Raw Storage Capacity: 4 TB
Huawei Technologies Co. Ltd.	HY-4-HUAWEI-X6000 V5	vSAN ReadyNode Generation: Intel Xeon Scalable (Skylake-SP) Profile: HY-4 Series Raw Storage Capacity: 4 TB
Huawei Technologies Co. Ltd.	HY-6-HUAWEI-2288H V5	vSAN ReadyNode Generation: Intel Xeon Scalable (Skylake-SP) Profile: HY-6 Series Raw Storage Capacity: 16 TB
Huawei Technologies Co. Ltd.	HY-6-HUAWEI-2288H V5	vSAN ReadyNode Generation: Intel Xeon Scalable (Skylake-SP) Profile: HY-6 Series Raw Storage Capacity: 8 TB
Huawei Technologies Co. Ltd.	HY-6-HUAWEI-X6800 V5	vSAN ReadyNode Generation: Intel Xeon Scalable (Skylake-SP) Profile: HY-6 Series Raw Storage Capacity: 48 TB
Huawei Technologies Co. Ltd.	HY-8-HUAWEI-2288H V5	vSAN ReadyNode Generation: Intel Xeon Scalable (Skylake-SP) Profile: HY-8 Series Raw Storage Capacity: 14.4 TB

# Continuous Evolution Roadmap Synchronous to Intel Release Schedule

# Monetize the New “Oil” with Real-Time Analytics, HPC & AI

## Market Opportunities

**\$717B** Smart Cities Market by 2023 (M&M)

**\$484B** Global MaaS Market Value by 2024 (MRFR)

**\$391B** Global AI Market Size by 2025 (Grand View Research)

**\$103B** Big Data Analytics Market by 2027 (Wikibon)

**6.9M** Units of Autonomous Driving Vehicles by 2030 (M&M)

## Data Generated & Projected

**40** ZettaBytes in 2020  
**175** ZettaBytes in 2025  
**80** ZettaBytes by IoT Devices in 2025 (IDC)

**2.5** Exabytes data generated everyday by Internet users by 2020 (iorgforum.org)

Nearly **30%** of the data to be processed in real-time in 2025 (IDC)

**97.2%** of organizations are investing in big data and AI

**63%** Americans would give up cars for UBER & Lyft (investors.com)

## Digital around the World in 2019 (source: most datareportal.com)

World's Population

**7.676 Billion**  
Urbanization  
**56%**

Unique Mobile Users

**5.112 Billion**  
Penetration  
**67%**

Internet Users

**4.388 Billion**  
Penetration  
**57%**

Active Social Media Users

**3.484 Billion**  
Penetration  
**45%**

Mobile Social Media Users

**3.256 Billion**  
Penetration

# Real-Time Interactive Network Usage Analytics & Prediction

## A Multi-Service Network Operator in USA

- 25M subscribers
- 500,000 LTE towers
- 10,000 WiFi APs added every month to offload LTE
- 1TB Network Usage log data Per Day in different formats

? Where to place the WiFi Access Points to offload LTE traffic most effectively & efficiently?

## Use GPU-Accelerated Data Query, Visualization & AI

- Real-time & Interactive Network Usage Analytics to any detail, any location/area and Any time frame
- Deep-Learning based AI to Predict Network Usage in the future to any detail
- ✓ With 500M Rows of Network Usage Logs Data, and 10s-100s Billions Rows of data could be analyzed in Real-Time

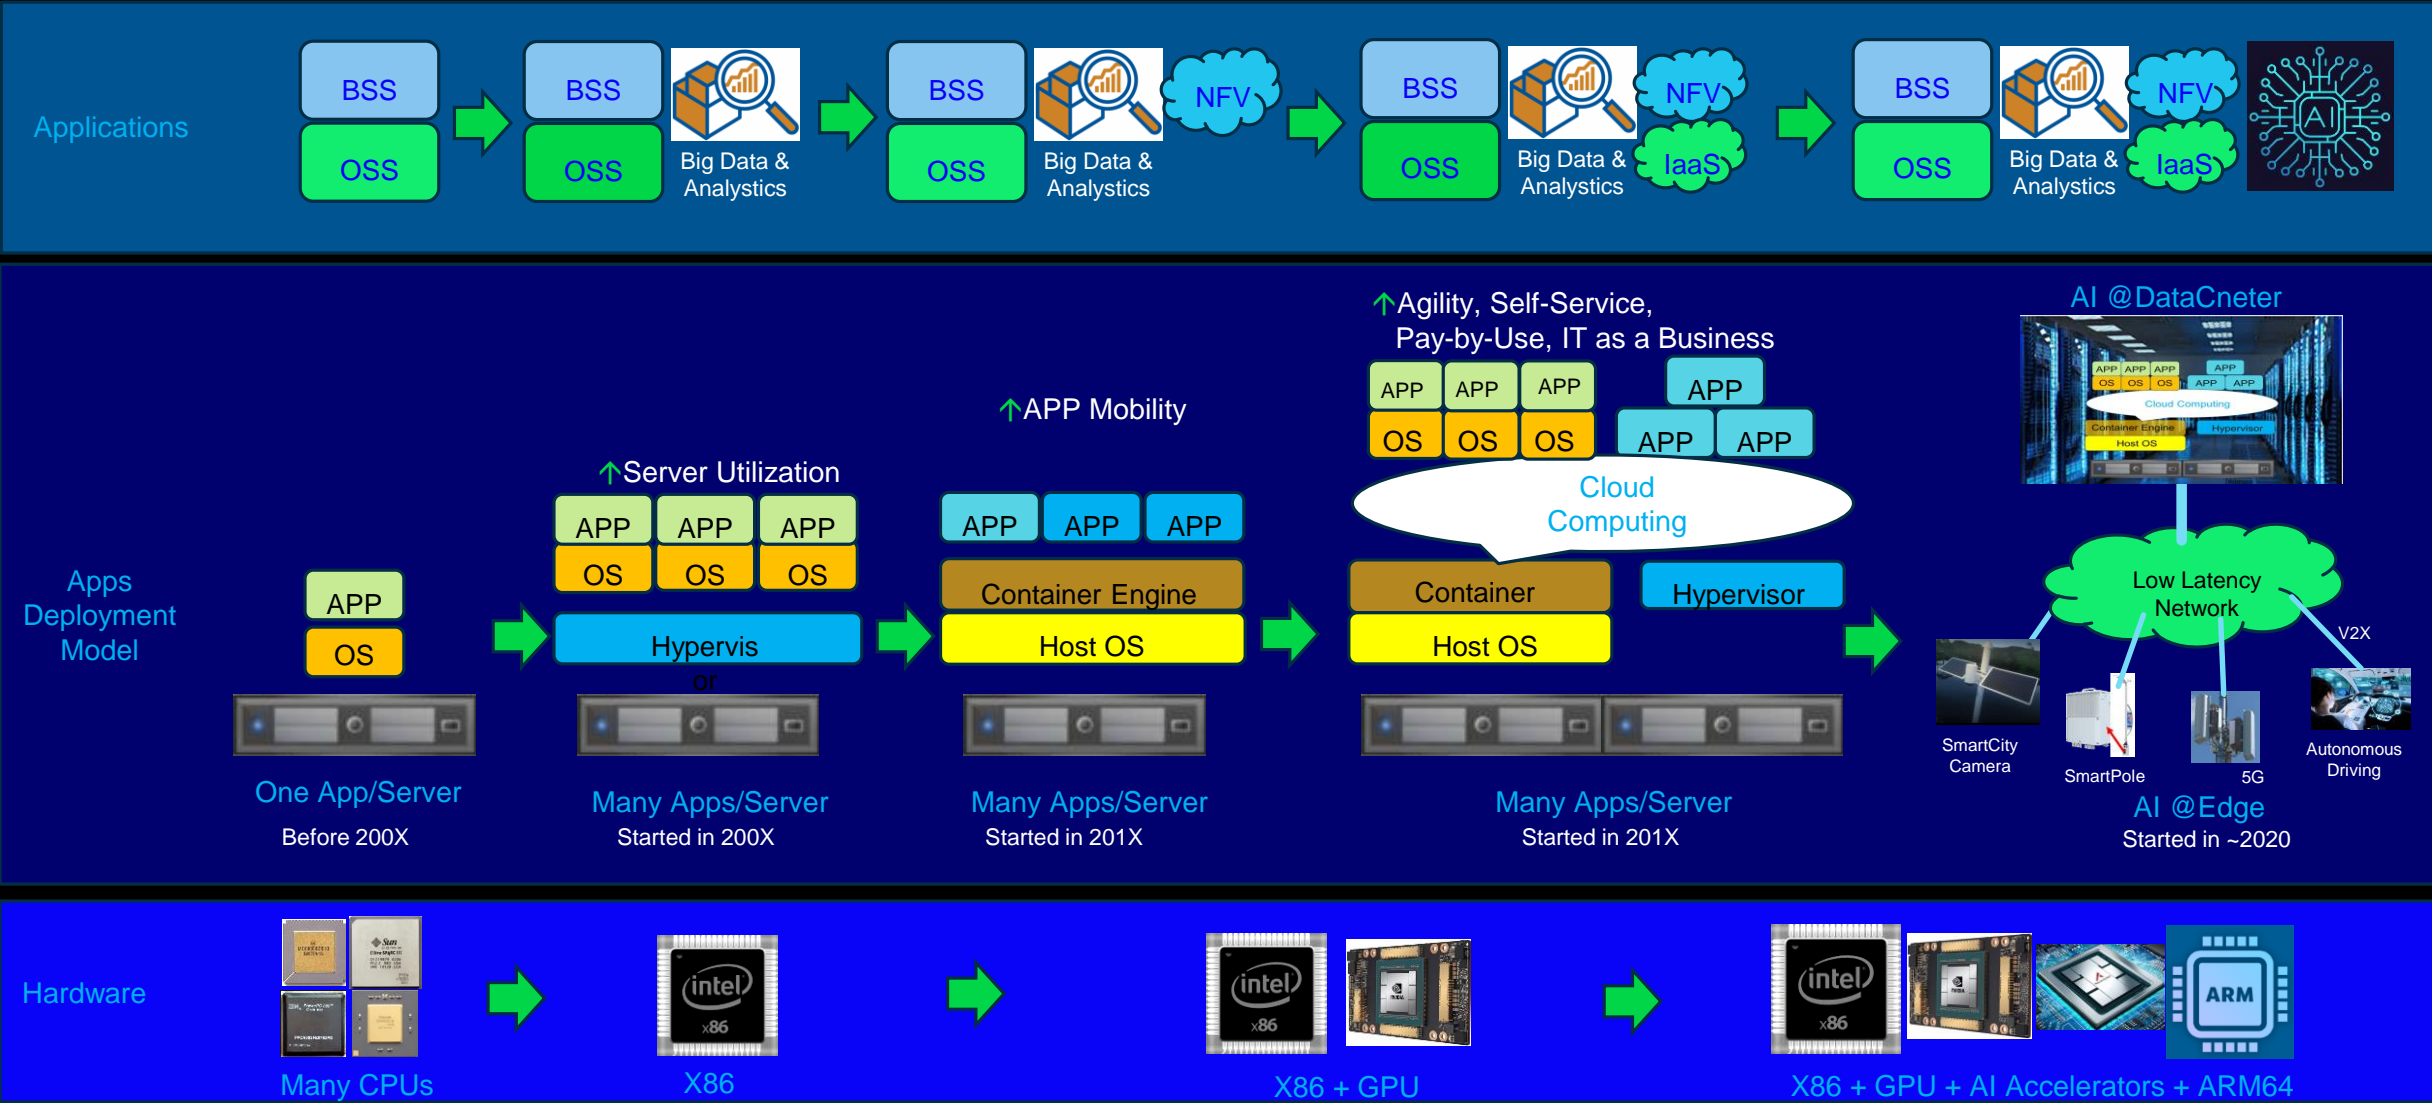

GPU-Accelerated Data Query & Analytics & Visualization in Real Time, 500M Rows of Data

Predictive Network Usage Analytics & Visualization in Real-Time

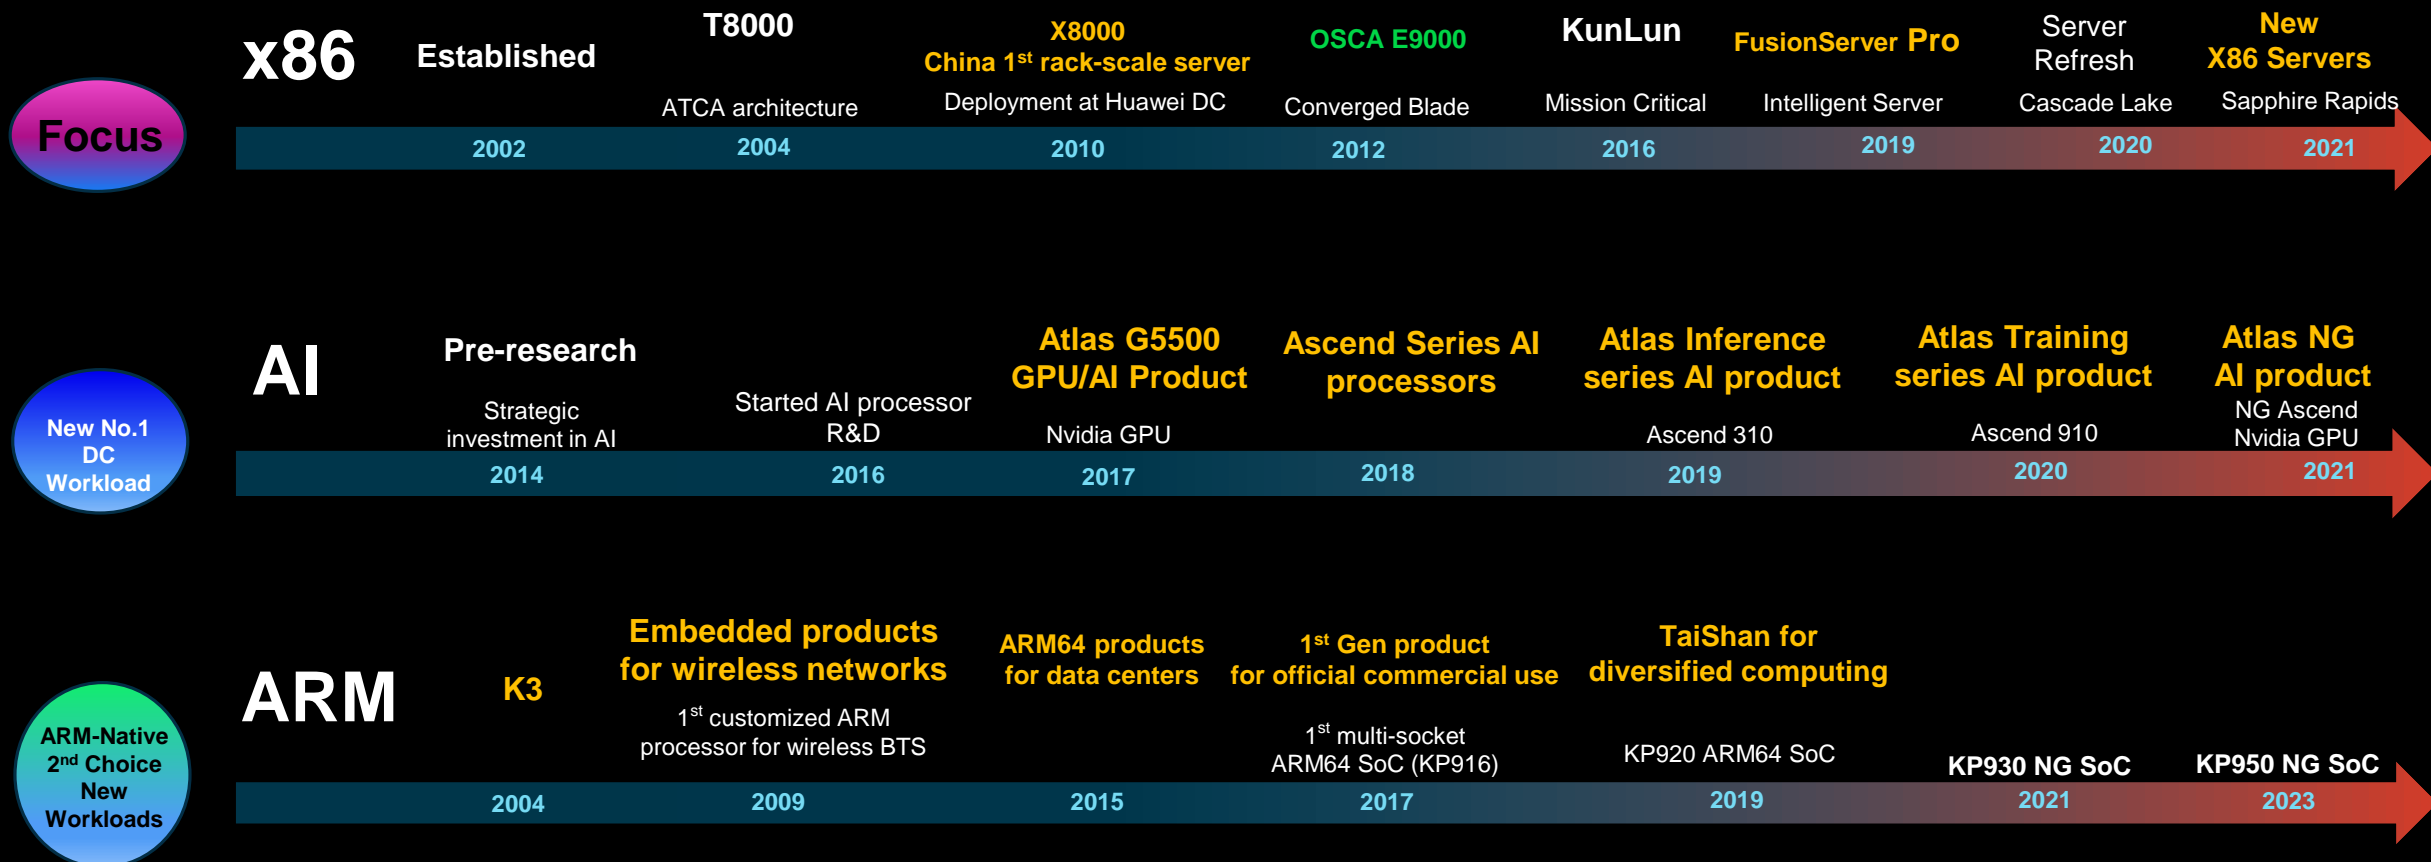

# Telco Computing Evolution: Cloud, 5G, AI, Intelligent Edge

# The Best Platform for the Most Suitable Applications

- ✓ No One Fits All: New Applications Need Optimized Hardware Platform for the Best Efficiency & TCO
- ✓ FusionServer/Pro X86 Products Synchronous to Intel Processor Release Schedule

# Rich Portfolio to Meet Your Every Intelligent Computing Need

- ✓ **Rich Product Portfolio** to meet your needs for different application scenarios:
  - Balanced, Computing or Storage Intensive, Homogeneous or Heterogeneous, Air or Liquid Cooling, Rack or Blade, etc.
- ✓ Full series upgraded to the latest **Intel Cascade Lake Refresh processor**, synchronous to Intel CPU Release Schedule

# What Customers Considered When Choosing Huawei Computing

## ✓ Quality Products

- DNA of Telecomm Products, E2E Quality Control

## ✓ Innovative Product Features

- Enabled by Self-Developed ASICs for Management, Perf, Deployment & Diagnosis

## ✓ Knowledgeable & Experienced Team

- Both Hardware & Software, Applications & Operations

## ✓ Long-Term Commitment & Support

- Both spare Parts & Software

## ✓ Secure & Reliable Supply Chain

- Quickly Delivery, Security & Source Quality Control

## ✓ Local Support

- Quick response & Easy to reach

## ✓ Competitive Pricing for TCO

- Not Only CAPEX, but also OPEX

## ✓ Partnership & Ecosystem

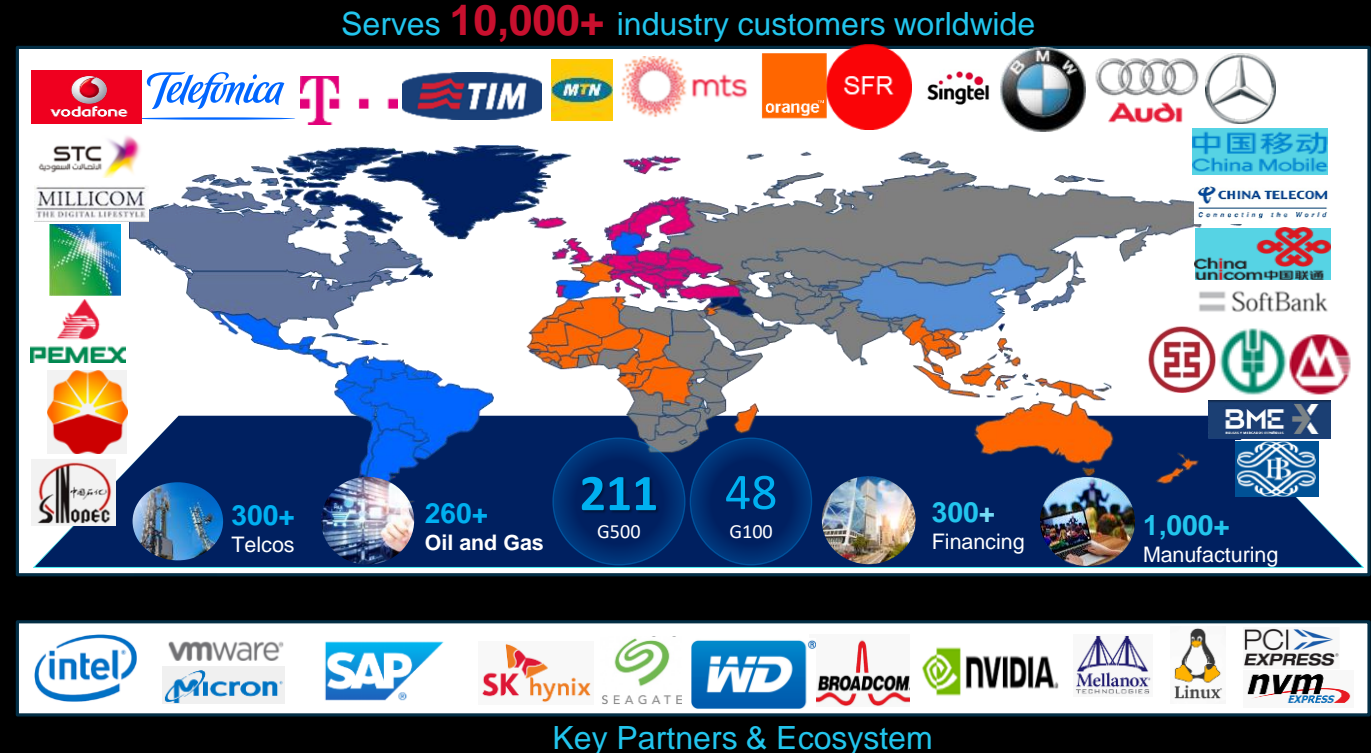

- Strategic Partnership with key players, X86 ecosystem

## ✓ Rich Product Portfolio

- No One Fits All, Rich Models to choose

## ✓ Consolidation of Suppliers

- The same supplier for CT & IT, fewer suppliers to Manage

# Quality Product is our DNA from Telecom Products

Over 30 years of hardware design, development, and manufacturing capabilities coupled with complete product R&D and test processes to maximize server reliability, reduce downtime and data loss, and enhance device maintainability

## Component Selection and Process Technique

## High Reliability Design

## Strict Test and Certification

## Enhanced O&M Features

Hard Disk Failure rate

**40% ↓**

*Source: Per Internal Testing & O&M Data Collections*

Working Temperature

**45°C**

*Source: Internal Lab Tested for most products*

Machine Failure rate

**15% ↓**

# Accelerating X86 Server Performance

## ES3000 series intelligent SSDs

- Optimal performance: PCIe Gen4 1.66M Random read IOPS, 7.0GB/s sequential read bandwidth
- All-scenarios: low latency, high performance, large capacity
- Service-aware: intelligent multi-stream, SR-IOV, atomic write

**Performance**  
100% up

**Service life**  
20% longer

## IN200/300 series intelligent NICs

- Converged: 10GE/25GE/40GE/100GE, 8G/16G/32G FC
- Accelerated: RoCE
- Reliable: industry unique to support firmware upgrade without service interruption

**CPU offload**  
15%

**Latency**  
30% less

## Atlas 300 AI accelerator card

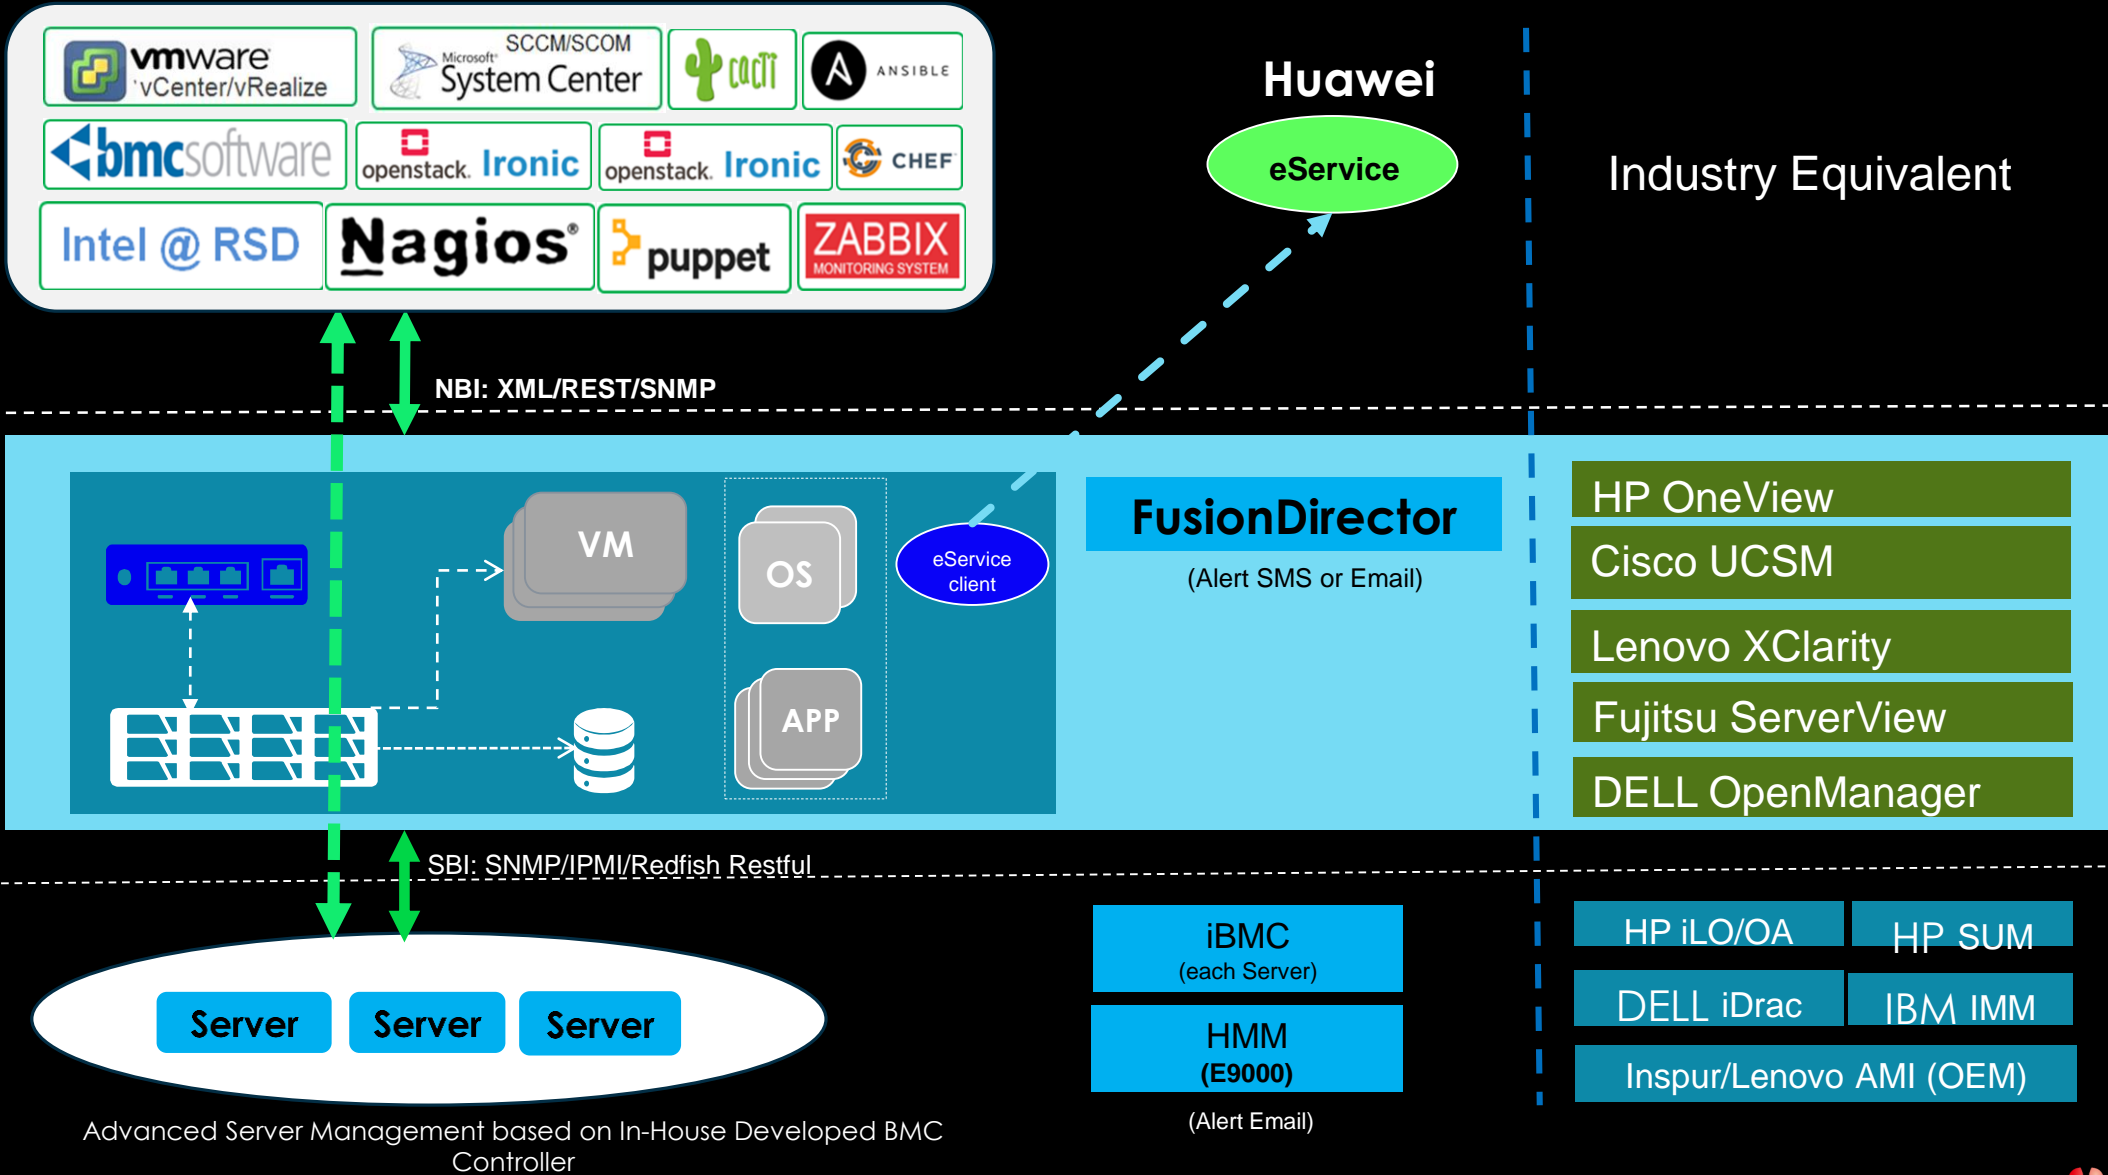

- Powerful computing: 64 TOPS of INT8
- High-density video parsing: 64-channel HD video real-time analytics

**CPU offload**  
15%

**Performance**  
64-Ch HD

# Open & Standard-Based Server Management

# FusionDirector: 5 Intelligent Management Features Reduce OPEX

## Intelligent **Asset** Management

Server model, configuration, inventorying, and retirement

Inventorying in **seconds**, improving space utilization by **10%+**

## Intelligent **Deployment** Management

Automatic deployment in data center cabinets

**10x** device rollout efficiency

## Intelligent **Version** Management

Automatic version matching, one-click update

Preparation done in seconds, reducing update steps from **20** to **3**

## Intelligent **Fault** Management

Fault prewarning, diagnosis, and locating  
**7–30 days** in advance for fault prediction,  
**93%** fault locating accuracy

## Intelligent **Energy Efficiency** Management

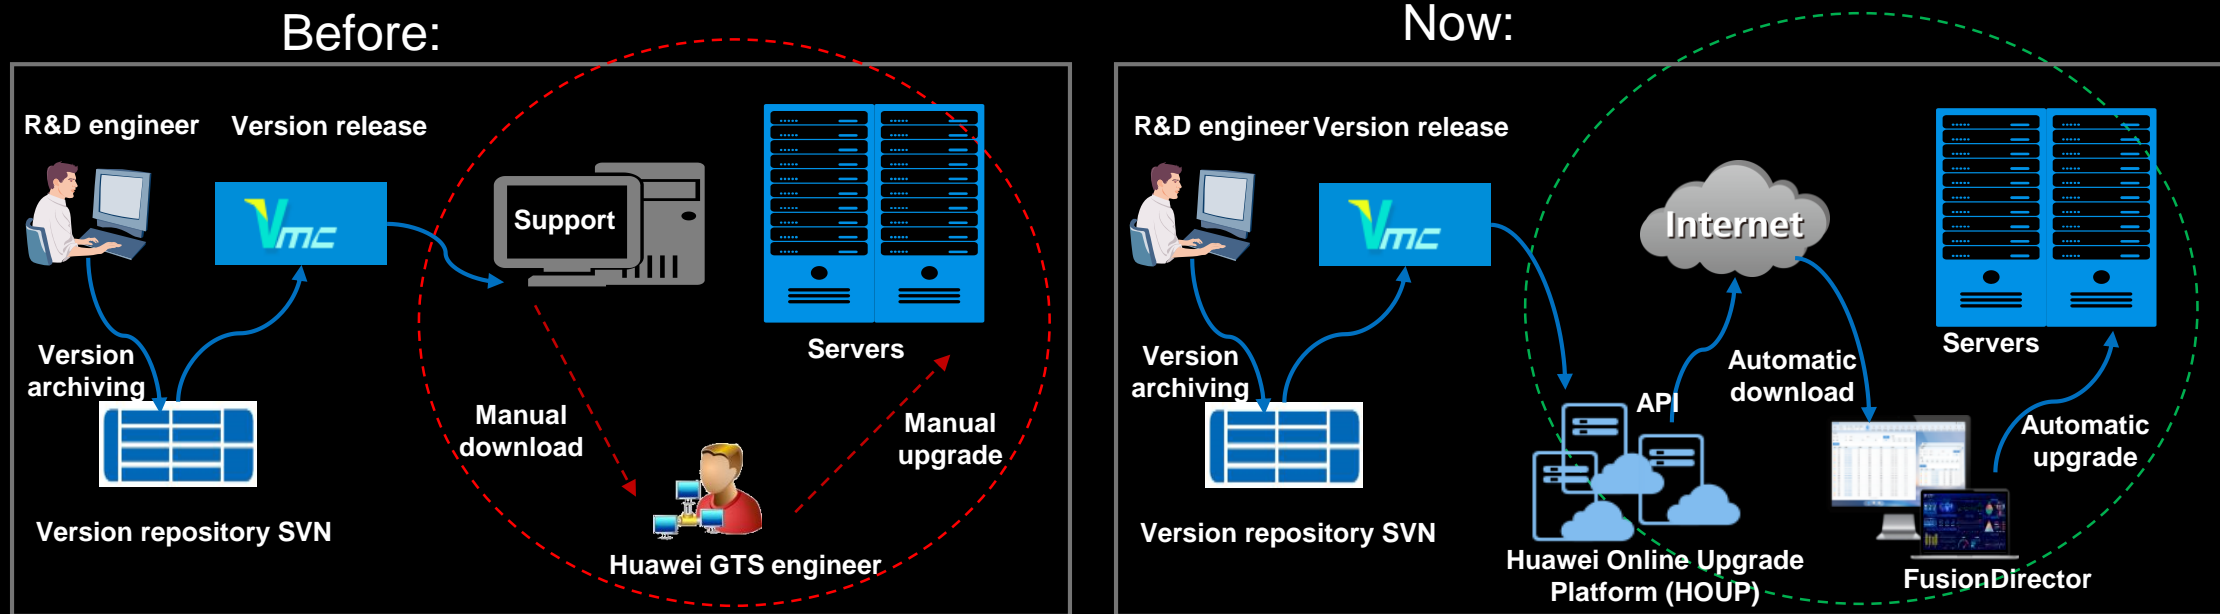

Server DMT, cabinet power capping, and data center linked control  
**10%** server energy saving, **20%** higher deployment density

# Intelligent Fault Prediction: Predicts Risky Hard Drives 7–30 Days in Advance

# Intelligent Version Management: Automatic Upgrade Of Device Software

- Automatic download: **Automatically detects** the firmware and drivers of servers of different models and manages firmware versions comprehensively
- O&M engineers **do not need to** manually download, upload, or upgrade firmware
- **Independent out-of-band upgrade**, without occupying service bandwidth

# Powerful AI Computing Platform to Enable Intelligent Transformation

# Huawei Server Helps Spain to Build 5G Core Network (2019)

The Vodafone Group, the world's second largest mobile communications company, is a multinational mobile phone operator. Headquartered in Newbury, Berkshire, UK and Düsseldorf, Germany. It is one of the world's largest mobile operators, with a network covering 26 countries and providing network services with its partners in 31 other countries. Vodafone has the world's most complete enterprise information management system and customer service system, and has a strong advantage in increasing customers, providing services and creating value. Vodafone's global strategy is to cover voice, data, Internet access services and provide customer satisfaction. Vodafone Group has more than 100,000 employees worldwide

## Challenges

- Spain's VDF 5G subnet is an important position for VDF Group's 5G strategy. It needs to rapidly deploy 5G networks and quickly occupy the 5G market.
- The deployment scale is large and involves many business modules.

## Solution

- Huawei provides 2S FusionServer Pro 2288H V5 rack servers and E9000 blade servers (2S CH121 V5 blade nodes).
- Huawei's next-generation V5 server with Intel Cascade CPU provides a stronger computing power, while supporting GPU cards to meet customers' desire to deploy GPU heterogeneous computing power.
- The eSight management system provides unified intelligent operation and maintenance of servers, storage, and networks.

## Customer Benefits

- The modular design of the blade Server greatly simplifies maintenance and allows for flexible expansion.
- Server with heterogeneous computing capabilities, saving customers' investment.
- eSight enhances the O&M capabilities of customer and unified management of IT infrastructure such as servers, storage, and networks to improve customer operation and maintenance efficiency.

# Power Grid: Industry's 1st Intelligent Unattended Inspection Solution, 5x Efficiency

Let me turn to Our Shenzhen Showroom for My Colleague for more details about our Intelligent Computing Products

# Take-Aways

- ✓ Big Data Analytics, Infrastructure as a Service, AI, Intelligent Video Analysis and Autonomous Driving will be ubiquitous in new era. **Telco must be ready to support these new workloads to keep competitive.**
- ✓ In working with partners like Intel, VMware, SAP, **Huawei has been offering a rich and innovative X86, AI & ARM64 Product Portfolio**, and is ready to support your needs for transformation to the Era of Digital & AI.
- ✓ **E9000 and 2288H V5** are Huawei's current mainstream server products, which meet the need of operator's mainstream computing scenarios. Compared with other vendors, it has great performance and reliability advantages
- ✓ Huawei **Atlas** AI series product covered cloud ,edge and device, can provide customer the E2E solution

Thank you
